

Visual Effects Artist

We are Velan Studios, an independent game developer with a passion for fresh, creative approaches to game development and entertainment media. Our gameplay strives to be accessible to new gamers but also provide deeper, more complex designs for the core gaming audience. Visually we are focused on whimsical and playfully stylized looks. We want to delight and challenge our audience, no matter who they are!

At Velan, we believe in maintaining a collaborative, diverse, and creative team environment and we're earnestly looking for new team members who have a desire to help grow this budding culture.

If you're an experienced Visual Effects Artist – full of curiosity and innovative thinking in the pursuit of crafting engaging, eye-catching visuals – we would love to hear from you!

Besides your ability to make great art, here are some of the key responsibilities and qualifications we are looking for:

- Craft and create a wide range of VFX for original and existing IP game properties.
- Work with the Art Director to develop a pipeline tailored for our Visual Effects department.
- Collaborate with the design and art teams to develop high-quality assets that reinforce the aesthetic goals of our projects.
- Be proactive in problem-solving and cross-discipline brainstorming.
- Bring a strong understanding of modern artistic toolsets and typical AAA game engine experience.
- Good technical art understanding in order to better work with our engineering team, as well as to better work within the limits of various hardware platforms.
- 3+ years of industry experience as a Visual Effects Artist, or other relevant experience.

Big plusses:

- Skills in one or more additional disciplines (e.g. Concepting, Animation, User Interface, Lighting, etc.)
- Technical expertise with standard industry toolsets.
- Experience with scripting or programming languages.
- Ability to create from your own ideas, not just from pre-existing concept art.
- Examples from personal projects.

To apply for this position, send your resume and a link to your portfolio to jobs@velanstudios.com. Be sure to reference the position you're applying for in the subject line.
